To write good captions in photojournalism, always write in the present tense and strive to be as specific as possible. Be sure to accurately identify individuals in the photos and include the necessary credits and citations when applicable. Avoid writing humorous captions unless the story itself is amusing, and never make judgemental statements.

Git never wraps text automatically. When you write the body of a commit message, you must mind its right margin, and wrap text manually. The recommendation is to do this at 72 characters, so that Git has plenty of room to indent text while still keeping everything under 80 characters overall. A good text editor can help here.
